California State University Long Beach. B.S. Computer Science with honor *Cum Laude*

About Me

I am an entry level software engineer, hungry to bring my talents and skills into the workforce. I have worked on substantial projects, led teams to deploying and delivering software, and have proven the ability to learn new frameworks/technologies on the fly. I am a fast learner and am eager to expand my programming abilities while contributing to a great team.

- ❖ Data Structures and Algorithms
- ❖ Object Oriented Programming & Design Principles
- ❖ Full Stack Web Development
- ❖ Database Fundamentals
- ❖ Agile/Scrum Environment
